

# How to use the Fares and Surcharges Table

First, look for "your" departure station on the vertical axis, and also your arrival station on the horizontal axis; then trace from both stations, one across, and the other down the table; where the two stations meet, you will find the cost of your journey in the corresponding box. Basic fare is written above, and the reserved-seat super-express surcharge (regular season) is indicated below. The sum is your actual cost.

Notes : 1. Different rules apply for the NOZOMI and MIZUHO trains. Charges are indicated in the table as follows: the basic fare in the top row; the reserved-seat super-express surcharge (regular season) in the middle row; and the super-express surcharge applied when a non-reserved seat is taken (the charges written in italics in the table are the special express surcharge) in the bottom row.

2. Please also refer to notes attached to other Fares and Surcharges Tables.
